

Wintry Mix

Design courtesy of Slumpy's

Crafter's Workshop stencils make great frit stencils! Create this wintry bowl in just a few easy steps.

MATERIALS

CF-132-F Carolina Frit Light Blue Transparent - Fine
CF-200-M Carolina Frit White Opalescent - Medium
CF-533-2-F Blue Topaz Carolina Frit - Fine
GBC-10-W01 Clear Sheet Glass - 10 In Circle
PT-540 PAPHYROS Kiln Shelf Paper
SM-2593 Deep Rim Bowl
SP-422 Klyr-Fire Glass Glue
TCW164 Flurries - 12" x 12" Template

SUPPLIES

Angled Cut Straw
Detail Writer Bottle (optional, for glass glue)
Hairspray
Plastic Spoon
Small Paintbrush or Toothpick

INSTRUCTIONS

1. Lightly spritz the 10" clear circle glass blank to give the surface tackiness.
2. Position the Flurries stencil onto the glass.
3. Fill in the snowflake design areas of your choice with a mix of fine Light Blue and Blue Topaz frit using a small spoon or angled cut straw.
4. Gently lift the template to reveal design.
5. Use a paintbrush or a toothpick to touch up design areas as needed.
6. Apply a small amount of Klyr-Fire glass glue to the design areas to secure frit.
7. Add a light sprinkling of fine Light Blue Transparent, medium White Opalescent, and fine Blue Topaz Transparent frit over the project.
8. Light spritz project with hairspray to secure frit in place.
9. Contour or full fuse project using the 6-segment firing schedule.
10. Once fired, slump project in the Deep Rim Bowl Mold.
