

Botanical Beauty

Design courtesy of Slumpy's

Bring the outdoors in through the use of this elegant, botanical serving bowl design.

MATERIALS

GBS-12-100-6 12" Square Clear Sheet Glass
N-1108-96 Medium Amber Transparent Glass Noodles
OC1-121 Light Green Transparent Odd Cuts
OC1-125 Dark Green Transparent Odd Cuts
PT-540 20.5" PAPHYROS Kiln Shelf Paper
RO-200-96 White Opalescent Glass Rods
S-56-96 Black Glass Stringers
SM-576 Wavy Rectangle Server Mold
SP-8268 Glas Tac Gel
ST-340 1" Running Pliers
ST-352 Pistol Grip Glass Cutter
ST-356 Tarheel Tools Wheeled Mosaic Cutter

SUPPLIES

Black Permanent Marker
Ruler
Toothpick

INSTRUCTIONS

1. Using a Pistol Grip Glass Cutter and 1" Running Pliers, score and break each 12" glass blank into 12" x 8" bases. Set one base aside.
2. On the initial glass base, arrange Medium Amber Noodles vertically across the surface to create stripes. Secure in place with pinpoints of Glas Tac Gel.
3. Overlay the vertical stripes with horizontal stripes of Medium Amber Noodles. Secure in place with pinpoints of Glas Tac Gel, then set aside to dry.
4. Sketch out a variety of half-leaf shapes onto the Light Green and Dark Green Transparent Odd Cuts with a black permanent marker.
5. Score and cut out each half-leaf shape, arrange in place on the second clear glass blank to create whole leaf designs, then secure in place with pinpoints of Glas Tac Gel.
6. Use your fingers to break a Black Glass Stringer into smaller pieces. Arrange in place on scattered leaves to accent the project design, then secure in place.
7. Nip a White Opalescent Glass Rod into smaller pieces using a Wheeled Mosaic Cutter. Adhere to scattered leaves to further accent the project design.
8. Position the leafy glass base over the initial, striped glass base. Position capped project in the kiln on a sheet of kiln shelf paper.
9. Full fuse completed project using Spectrum's 6-segment firing schedule.
10. Once fired, slump project in the Wavy Rectangle Server Mold.
