

Bright and Shiny Holidays

Supplies

Marker
Rubbing alcohol
Q-tips / glue
Brown Cow SC041
Non-aerosol hairspray
Safety glasses / gloves

Tools

Wheel Mosaic Nipper - ST356
1" Running Pliers - ST340
Scoring Tool - Pistol or pen grip

Slump Mold: SM-9001

Materials

3GB0-10x4-100S-ICE-F
10" Transparent Glass Oval
Green / black Stringers
Red Rods
Transparent glass in 3 colors
Black opaque glass

Steps

- 1 - Cut out long, thin brown glass for branch with organic curves.
- 2 - Place 6 pieces of black stringers of varying lengths across the underside of the branch. You can nip the stringers with your fingers!!
- 3 - Cut 6 small black squares for the ornament caps.
- 4 - Draw 6 round ornament shapes with a marker on the transparent glass. 2 of each color.
- 5 - Using the Wheel Mosaic Nipper, nip along the line until you have 6 round ornaments.
- 6 - Place under ornament caps. You may need to adjust the black stringer lengths. Once all the ornaments are on the clear base, glue down all parts of the ornaments.
- 7 - Nip various lengths of green stringers to make 6 clumps of pine needles above and below branch.
- 8 - Place 5 red rods alternating above and below the branch.
- 9 - Sprinkle a little fine and medium green frit near the centers of the pine needle clumps.
- 10 - Sprinkle clear fine frit around the pine needles and branch.
- 11 - Fire flat to a full or contour fuse schedule first. Then place on primed mold and slump!
Have a glassy Holiday y'all! :)
