## Directions:

1. Assemble the G2 Bottle Cutter per instructions inside box.

2. Score the bottle by turning the counter-clockwise, holding the bottle and cutter in place.

(Put on gloves and safety glasses for the next steps.)

3. Using the lit candle, rotate the bottle to heat the score line.

4. Run cold water over the score line. Repeat heating then cold water as needed. You will hear popping noises as the bottle heats then cools. The bottle will break at the score line.

\*If your edges are rough use the sand paper provided in the box to smooth them out.

5. Use Slumpy's Mini Pendant Light to hang.
